Question related to: Directive 89/686/EEC	EN/prEN:344-2 prEN ISO17250	Other:	
Annex:	Article:	Clause:	
Key words: Leather for firefighter footwear			
Question: In EN 344-2 the upper of shoes with protection against fire fighting hazards of classification I only could be produced with full grain leather. Is it possible with ISO 17250 to use also other materials in classification I, if the material fulfil the requests?			
Solution: EN ISO 17250 does not specify the type of leather. As soon as this new standard will be published, other leathers than full grain will be possible.
