| Question related to: Hybrid construction | EN/prEN: EN ISO 20344,5,6,7 | Other: |
| Annex: | Article: | Clause: |

Key words:
Certification - category

Question:

Is it possible to certify this footwear according to EN ISO 20345? How to deal with the classification 1 and 2?

Solution:

No it is not possible to certify to EN ISO 20345 as full compliance with the requirements of Classification 2 is not possible as the product is not all polymeric and full compliance with the requirements of classification 1 is not possible as the polymeric section will not meet the requirements for WVP/C.

Recommend to certify directly against EC Directive 89/686 Annex 2 using relevant requirements of EN ISO 20345 In which case the user information notice will need to explain why the product does not pass the WVP/C requirements on the lower section.

Sent to: members of the VG other(s) VG HC (2) TC (3) SC (4) other (5)

(1) Essential safety requirement
(2) HC = horizontal committee

(3) N° of CEN/TC (Secretary & Chairman)
(4) EEC Standing Committee 89/392

(5) To be specified
