Question related to:	EN ISO	Other:	
Annex:	Article:	Clause:	
Key words: Non-metallic penetration resistant insert			
Question: If non metallic penetration resistant inserts are used as insole simultaneously (e.g. Strobel) which requirements must be fulfilled? How work the other NB with this matter?			
Solution: The insert must fulfill all requirements of an insole ( e. g. thickness, water absorption and desorption, abrasion ...) plus the additional the requirements of an non-metallic penetration resistant insert,
