Question related to: EN ISO 20345 : §5.4.1	EN ISO 20344/5/6/7	Other:	
Annex:	Article:	Clause: 5.4.1	
Key words: Collar & insert			
Question: EN ISO 20345 : §5.4.1 When collar and insert materials are present above the heights given in table 10, such materials shall meet the tear strength, 5.5.1, and abrasion resistance, 5.5.2, requirements for lining. In the case of leather materials they shall meet in addition the requirements for the pH value, 5.4.7, and for the chromium VI content, 5.4.9. Above the heights given in table 10, the basic upper material shall fulfil the upper requirements. If an identical material is present under and above the heights given in table 10 shall this material meet upper requirements or upper + abrasion resistance requirement for lining ?			
Solution: If an identical material is present both under and above the heights given in table 10, the upper requirements are sufficient (ie no abrasion resistance testing is necessary)
