Question related to: Marking	EN/prEN: EN 1621 Parts 1 & 2	Other:
Annex: Article:	Clause: EN 1621-1 Clause 7 and FprEN 1621-2 Clause 6	

Key words: EN 1621-1: 2012 and EN1621-2: 2014

Question:

If a protector achieves performance level 2 impact attenuation after all three conditioning procedures of:

1. Ambient,
2. wet
3. low temperature

But only performance level 1 attenuation after high temperature conditioning

Can it be marked with 2 separate pictograms – one showing only "T-" and Level 2 the other also showing "T+" but at Level 1?

Solution:

No. It is not acceptable to include two separate (and confusing) pictograms showing different levels, only a single pictogram may be used, see EN 1621-1: 2012 clause 5.4 and / or EN 1621-2: 2014 clause 4.4.

Sent to: members of the VG other(s) VG HC (2) TC (3) SC (4) other (5)

(5)

(1) Essential safety requirement
(2) HC = horizontal committee

(3) N° of CEN/TC (Secretary & Chairman)
(4) EEC Standing Committee 89/392
