

Self-declaration of notified bodies in the field of PPE

HORIZONTAL COMMITTEE
OF NOTIFIED BODIES

Status: 16 January 2018

In order to give a higher status to Recommendation for Use sheets and to support their implementation the Horizontal Committee decided to issue a voluntary self-declaration for the notified bodies within the European Coordination of Notified Bodies PPE. The signed self-declarations are sent to the Technical Secretariat and will then be made available on the website of the European Coordination of Notified Bodies PPE. Such a declaration could be used by the notified bodies to show that they work in line with the recommendations agreed among the notified bodies. Manufacturers may use this declaration as a reference for the competence of notified body. In this context the idea is to ask e.g. the manufacturers' federations to make the list available at their websites. The table below includes all notified bodies within the European Coordination of Notified Bodies PPE who declared to implement the Recommendation for Use sheets of the European Coordination of Notified Bodies PPE as follows:

We the undersigned hereby declare that

notified body id-no.
name identification number

implements all horizontal Recommendation for Use sheets and all relevant vertical Recommendation for Use sheets approved by the PPE Working Group of the Standing Committee and published on the EU website.

Exceptions to this may occur when the notified body deems Recommendation for Use sheets not to be applicable and/or valid taking into account the terms and scope of the accreditation and notification.
